

Common Name

Range	Back-Electret Microphones
Retail Price Band	No Longer Available
Requires	Powering module

Electrical Characteristics

Frequency Response	50Hz - 15kHz
Output Sensitivity	5mV/Pa
Max SPL	
Self Noise (CCIR)	24dB
Self Noise (DIN/IEC)	
Output Impedance	130Ω
Recommended Load	0.3kΩ
Powering	Phantom 12-48
Supply Current	
Alternative Powering	Internal 5.6V battery

Switchable Options

Pad	
Filter/EQ	-7dB, -20dB @ 50Hz

Physical Characteristics

Connector	XLR-3M
Connector Notes	On K3U module
Available Colours	Satin nickel
Weight	205g (7.21oz)
Length	313mm (12.32")
Min Diameter/Width	19mm (0.74")
Max Diameter/Width	22mm (0.86")
Depth	

A short-shotgun capsule for use with various K-series power modules - measurements given with the K3U. [The K3U (XLR) or K3N (Tuchel) powering module had balanced output, the K1 unbalanced, and the K30AV was a transformerless o/p with multipin connector and non-standard powering.]
